User Experience Designer

EXPERIENCE

UI/UX Designer Jun. 2020 - Present

CIMON Co.

- Collaborating across teams at a fast pace to conceptualize, design, test, and ship a new SCADA software (Supervisory control and data acquisition). Also helped to identify and improve potential interaction flaws across current products.
- In charge of creating and maintaining a standardized design library to ensure design consistency across products.
- Working closely with product manager to explore better ways for documenting and communicating, design decisions, prioritizations, and long-term roadmaps.

Graphic Designer..... Sep.2019 - Jun. 2020

CIMON Inc.

- Responsible for the design and layout of materials for all departments as needed.
- Responsible for coordinating trade show and open house booths including the design, layout and messaging.
- Translate customer insights and performance data into design concepts for creative campaigns.

Production Assistant Jun. 2018 - Feb. 2019

Esports Arena

- Work closely with the Production Team to produce regular live esports events as well as live broadcasts and streams of those events.
- Create original content and programming including packages and docuseries for the web, and build content for and controlling the 50-foot LED screen.
- Perform work in both front of house and back of house control rooms and support any other position as production needs arise.
